

About the APDU Annual Conference

The **Association of Public Data Users'** Annual Conference attracts thought leaders from the business community, universities and educational institutions, state and local governments, and the federal agency statistical system. It presents a premier opportunity to showcase your products, services, and accomplishments to data users and data producers from across the industry. APDU offers several opportunities to connect with our community of professionals both at the conference and through our communications.

The **2023 APDU Annual Conference: *Expanding the Universe of Public Data*** takes place at the **Amazon Skills Center, 1550-G Crystal Drive, Arlington, VA 22202 July 25 – 26, 2023**. Public data doesn't need to just refer to the federal statistical system: there is a universe of publicly available data coming from a variety of sources including state and local governments and nonprofits. There is an opportunity to unlock the value of public data by examining its multidimensionality across federal, state, and local levels. Come to APDU's 2023 Annual Conference to explore this expanding universe of public data!
